Abu Dhabi, UAE, March 3–4, 2019

Naseej Academy, in collaboration with the Special Libraries Association – Arabian Gulf Chapter (SLA–AGC), is pleased to announce that Dr. Khaled Mohamed Fargoun, Professor of Educational Technology at Helwan University, Egypt, will lead a workshop entitled “Security and Privacy Aspects of the Internet of Things (IOT) for Libraries”.

The workshop will be held on March 3–4, 2019, at the Dusit Thani Hotel, Abu Dhabi, UAE, and will precede the SLA–AGC’s 25th Annual Conference & Exhibition.

The workshop will address the information security and privacy implications of modern library technologies such as the Internet of Things and supportive technologies.

Workshop participants will also gain a general understanding of investment in, and use of, IoT by libraries; and the role and use of brain–computer interface (BCI) technology in providing library services for people with special needs.
